

AS Sub B1
1. (Amended) A pharmaceutical composition comprising a neuroprotectant amount of pGLU-GLU-PRO-NH₂ as an active ingredient.

Alf
3. (Amended) A pharmaceutical composition comprising pGLU-GLU-PRO-NH₂ and N-tert-Butyl- α -(2-sulfophenyl)nitrone as active ingredients.

Alf
5. (Amended) A pharmaceutical composition comprising pGLU-GLU-PRO-NH₂ and one or more nitrones as active ingredients.

AS Sub B2
7. (Amended) A method of treating neurological diseases and injuries comprising administering to a patient a composition comprising a therapeutically effective amount of pGLU-GLU-PRO-NH₂ as an active ingredient under time and conditions to treat said disease.

Alf Sub B3
10. (Amended) A method of treating neurological diseases and injuries comprising administering to a patient a composition comprising a therapeutically effective amount of (a) pGLU-GLU-PRO-NH₂ and (b) N-tert-Butyl- α -(2-sulfophenyl) nitrone or a free radical scavenging nitrene that enhances the effects of pGLU-GLU-PRO-NH₂ under time and conditions to treat said disease.

Please add the following claim:

Rule 196
Alf Sub B3
11. (New) A method of preventing neurological diseases and injuries comprising administering to a patient a composition comprising a therapeutically effective amount of pGLU-GLU-PRO-NH₂ as an active ingredient under time and conditions to treat said disease.
